
Table of contents

Preface	vii
Table of contents	ix
Chapter	
1 Introduction	1
1. Context	3
2. Exploring the nature of the project	4
3. The research problem and research question	11
4. Methodological considerations	14
5. Research design	24
6. Data representation and sources	27
7. Quality assurance	28
8. Notes	29
2 A stylized model of euphoria	33
1. Introduction	35
2. The principles of bubbles	35
3. A stylized model of euphoria	41
4. Summary and conclusions	53
5. Notes	54
3 Euphoria as part of a technological revolution	55
1. Introduction	57
2. The business cycle	57
3. Regularities in history	60
4. Theory of Reasoned History	62
5. The Great Surge model	66
6. Stylized model of Great Surges	70
7. Summary and conclusions	74
8. Notes	75
4 Industry development and the ‘development path’	77
1. Introduction	80
2. Exploring the characteristics of the telecom sector	80
3. Revisiting the strategy and policy perspectives	89
4. Exploring the ‘development path’ of the sector	94
5. Industry development and industry structure	104
6. Summary and conclusions for the research focus	122
7. Notes	125

Chapter		
5	The development path of the telecom sector before the bubble	129
	1. Introduction	132
	2. The drivers of industry development	133
	3. The inhibitors of industry development	145
	4. The development path of the telecom sector up to 1995	150
	5. Summary and conclusions	168
	6. Notes	171
6	The Internet bubble explained	173
	1. Introduction	177
	2. Application of the stylized model of euphoria	183
	3. Application of the stylized model of Great Surges	240
	4. Summary and conclusions	255
	5. Notes	256
7	The impact of the Internet bubble on the development path of the telecom sector	261
	1. Introduction	264
	2. The linkage between the 'bubble and the path'	264
	3. Exploring the development path of the telecom sector during the bubble period 1995-2002	268
	4. The development path of the telecom sector during the bubble period 1995-2002	289
	5. Summary and conclusions	309
	6. Notes	317
8	The implications for policy and strategy formation in the aftermath	319
	1. Introduction	322
	2. Strategy and policy perspectives during the bubble period	323
	3. Typical policy considerations in the aftermath of bubbles	328
	4. The implications of the bubble on the telecom sector	331
	5. Implications emerging from the installation of the new techno-economic paradigm	342
	6. Conclusions for the research project	356
	7. Notes	357

References	361
Annex	
1 List of abbreviations and acronyms	375
2 Time line of events	381
3 Rail Road Mania in the 19th century	395
4 Downsizing in the aftermath	403
5 Filing for bankruptcy protection	407
6 Acquisitions in the telecom sector	413
7 Optical networks build-out	419
8 A telecom industry cycle	427
Summary	451
Samenvatting	455
Curriculum Vitae	459
